

Stay out of the public's business ! Government is turning into Nazi's with all this "you can hear this, you cant hear that" crap . How about let people listen to what they feel comfortable with ?? If they dont like it , they can stop listening .

I think the war on terrorism is HELLUVA LOT more important than what every citizen is listening to and WHAT YOU THINK IS APPROPRIATE !!

I'll monitor what i think is listenable and you monitor Osama. How's that !?!!?
